CLINICA CHIMICA ACTA
Vol. 41 (1972)

Publisher's Note

The publisher's are most grateful to have found Professor S. C. Frazer willing to succeed the late Dr. C. P. Stewart as Editor-in-Chief of Clinica Chimica Acta. His close cooperation with Dr. Stewart during the past six years, when he acted as Associate to the Editor-in-Chief, guarantees the continuation of the editorial policy.

CLINICA CHIMICA ACTA

INTERNATIONAL MONTHLY OF CLINICAL CHEMISTRY

Vol. 41 (1972)

Sponsored by the following National Societies:

Association of Clinical Biochemists, *Great Britain*
Belgische Vereniging voor Klinische Chemie, Société belge de chimie clinique, *Belgium*
Nederlandse Vereniging voor Klinische Chemie, *The Netherlands*
Deutsche Gesellschaft für Klinische Chemie, *Germany*
Société française de biologie clinique, *France*
Société suisse de chimie clinique, Schweizerische Vereinigung für klinische Chemie, *Switzerland*

Editors:
S. C. Frazer, Aberdeen

for the Americas – M. Rubin, Washington, D.C.
for the British Commonwealth – R. Gaddie, Birmingham
for all other territories, including Europe – E. J. van Kampen, Groningen

Editorial Secretary:
Th. Strengers, P.O. Box 4073, Amsterdam, The Netherlands

CLINICA CHIMICA ACTA Vol. 41 (1972)

AUTHOR INDEX

AFFONSO, A. see AFONSO, E. 275
AFONSO, E., AFFONSO, A., SANSGUIRI, R. S.
(Orthogonal immunodiffusion and immunoelectrophoresis of serum proteins) 275
AQUARON, R.
(Protein-bound iodine and hormonal iodine after ioxitalamic acid) 175
ATKINS, P. R. see FISHER, M. T. 109
BAIN, A. D. see BUTTERWORTH, J. . . . 367
BARLOW, B., G. WILKINSON, A. W.
(The effect of burns on the metabolism of tryptophan in children) 169
BARNES, I. C. see MOORE, G. R. 439
BERENDS, G. T., DE JONG, J., ZONDAG, H. A.
(A study of serum lipoprotein electrophoresis on cellogel: normal values, comparison with SML-profiling and ultracentrifugation) 187
BEVAN, B. R., HOLTON, J. B.
(Inhibition of bilirubin conjugation in rat liver slices by free fatty acids with relevance to the problem of breast milk jaundice) 101
BLESS, J. W. see KIESOUW, L. A. . . . 123
BOOTSMA, J., WOLTHERS, B. G., GROEN, A.
(Determination of serum 5-nucleotidase by means of a NADH-linked reaction) 219
BOOTSMA, J. see WOLTHERS, B. G. . . . 223
BORG, L. LINDSTEDT, S., STEEN, G. HJALMARSON, O.
(Aliphatic C_4–C_{14} dicarboxylic acids in urine from an infant with fatal congenital lactic acidosis) 363
BREMER, H. J. see PRXYREMBEL, H. . . 95
BRYDON, W. G., ROBERTS, L. B.
(The effects of haemolysis on the determination of plasma constituents) 435
BUIST, N. R. M. see KENNAWAY, N. G. . 157
BUTTERWORTH, J., BAIN, A. D., MCCRAE, W. N.
(Cystic fibrosis and liver β-galactosidase and β-glucosidase) 367
CARAWAY, W. T., KAMMEYER, C. W.
(Chemical interference by drugs and other substances with clinical laboratory test procedures) 395
CATHELINEAU, L., SAUDUBRAY, J. M., POLONOVSKI, C.
(Ornithine carbamyl transferase: the effects of pH on the kinetics of a mutant human enzyme) 305
CERFONTAIN-VAN STAALEN, I. see VAN ROON-DJORDJEVIČ, B. 55
CHARVET, J. C. see MATHIEU, P. 5
CHAZOT, G. see MATHIEU, P. 5
CHIO, L.-F. see TAN, I.-K. 329
COTLIER, E. see GOLDBERG J. M. 19
CUSWORTH, D. C., DENT, C. E., SCRIVER, C. R.
(Primary hyperparathyroidism and hyperaminoaciduria) 355
DALE, R. A.
(The assay of methylmalonic acid in urine) 141
DENT, C. E. see GUSWORTH, D. C. . . . 355
ENGLIŠ, M., ŠINDELÁŘ, J.
(The heat aggregation of human IgD) . 75
EMMERSON, B. T. see JOHNSON, L. A. . . 389
ERIKSSON, H., GUSTAFSSON, J.-Å.
(Excretion of steroid hormones in adults. Steroids in urine from adults) 79
FELLMAN, J. H. see KENNAWAY, N. G. . 157
FINGERHUT, B.
(A non-mercurimetric automated method for serum chloride) 247
FISHER, M. T., ATKINS, P. R., JOPLIN, G. F.
(A method for measuring faecal chromium and its use as a marker in human metabolic balances) 109
GITERSON, A. L. see GOOSSENS, J. P. . . 149
GOLDBERG, J. M., COTLIER, E.
(Specific isolation and analysis of mucopolysaccharides (glycosaminoglycans) from human urine) 19
GOOSSENS, J. P., STATIUS VAN EPS, L. W., SCHOUTEN, H., GITERSON, A. L.
(Incomplete renal tubular acidosis in sickle cell disease) 149
GOVERDE, B. C., VEENKAMP, F. J. N.
(Routine assay of total urinary hydroxyproline based on resin-catalysed hydrolysis) 29
GROEN, A. see BOOTSMA, J. 219
GROEN, A. see WOLTHERS, B. G. 223
GUSTAFSSON, J.-Å. see ERIKSSON, H. . . 79
HAMFELT, A., TUVEMO, T.

(Pyridoxal phosphate and folic acid concentration in blood and erythrocyte aspartate aminotransferase activity during pregnancy) 287
HIGASHINO, K., TAKAHASHI, Y., YAMAMURA, Y.
(Release of phenyl acetate esterase from liver micosomes by carbon tetrachloride) 313
HJALMARSON, O. see BROG, L. 363
HOLTON, J. B. see BEVAN, B. R. 101
HORLICK, L. see KUDCHODKAR, B. J. . . 47
ISHIHARA, A., KURAHASI, K., UEHARA, H.
(Enzymatic determination of ammonia in blood plasma) 255
JACKSON, P., WHITTAKER, M.
(Evidence for an abnormality in the erythrocyte membranes of patients having paroxysmal nocturnal haemoglobinuria and aplastic anemia) 299
JELLUM, E. see PETTERSEN, J. E. . . . 199
DE JONG, J. see BERENDS, G. T. 187
JOHNSON, L. A., EMMERSON, B. T.
(Isolation of crystalline uric acid from urine, for urate pool or turnover measurements) 389
JOPLIN, G. F. see FISHER, M. T. 109
KAMMEYER, C. W. see CARAWAY, W. T. . 395
KARLI, J. N. see LEVIS, G. M. 335
KELLEN, J. A. see LO, J. S. 239
KENNAWAY, N. G., BUIST, N. R. M., FELLMAN, J. H.
(The origin of urinary *p*-hydroxyphenylpyruvate in a patient with hepatic cytosol tyrosine aminotransferase deficiency) 157
KHORLIN, A. YA. see PRIVALENKO, M. N. 269
KIESOUW, L. A., BLESS, J. W., NELSON, D. P., SHELTON, J. B.
(A new method for the rapid determination of oxygen-dissociation curves in small blood samples by spectrophotometric titration) 123
KONTTINEN, A. see MURROS, J. 263
KUDCHODKAR, B. J., SODHI, H. S., HORLICK, L.
(Comparison of isotopic and chromatographic methods for estimating fecal bile acids) 47
KURAHASI, K. see ISHIHARA, A. 255
LARSON, K.
(Creatinine assay by a reaction-kinetic principle) 209
LEVIS, G. M., KARLI, J. N., MALAMOS, B.
(The phospholipids of the thyroid gland) 335
LIM, T.-S. see TAN, I.-K. 329
LINDSTEDT, S. see Borg, L. 363
LO, J. S., KELLEN, J. A.
(A proposal for a more uniform output in laboratory data) 239
MALAMOS, B. see LEVIS, G. M. 335

CLINICA CHIMICA ACTA Vol. 41 (1972)

SUBJECT INDEX

Acidosis, fatal congenital lactic, aliphatic C_6–IC_{14} dicarboxylic acids in urine from an infant with (BORG, LINDSTEDT, STEEN) 363

Acidosis, renal tubular, incomplete, in sickle cell disease (GOOSSENS, STATIUS VAN EPS, SCHOUTEN, GITERSON) . . . 149

Alkaline phosphatase, human serum, heat stability of, in bone and liver diseases (TAN, CHIO, LIM) 329

Ammonia in blood plasma, enzymatic determination of (ISHIHARA, KURAHASI, UEHARA) 255

Aplastic anemia, evidence for an abnormality in the erythrocyte membranes of patients having paroxysmal nocturnal haemoglobinuria and (JACKSON, WHITTAKER) 299

Aspartate aminotransferase isoenzymes, an electrophoretic method for the quantitation of (MURROS, KONTTINEN, SOMER) 263

Aspartate, erythrocyte, aminotransferase activiy during pregnancy, pyridoxal phosphate and folic acid concentration in blood and (HAMFELT, TUVEMO) 287

Automated method, an improved rapid, for the estimation of blood glucose (MOORE, BARNES, PENNOCK) 439

Benzodiarone, the inhibition of xanthine oxidase activity by (MARCOLONGO, MARINELLO, RIARIOSFORZA, PAGANI) . . . 91

Bile acids, fecal, comparison of isotopic and chromatographic methods for estimating (KUDCHODKAR, SODHI, Horlick) 47

Bilirubin conjugation, inhibition of, in rat liver slices by free fatty acids, with relevance to the problem of breast milk jaundice (BEVAN, HOLTON) 101

Blood cells, the assay of pyruvate kinase activity in (TANPHAICHITR, VAN EYS) . 41

Blood samples, small, a new method for the rapid determination of oxygen-dissociation curves in, by spectrophotometric titration (KIESOUW, BLESS, NELSON, SHELTON) 123

Breast milk jaundice, inhibition of bilirubin conjugation in rat liver slices by free fatty acids, with relevance to the problem of (BEVAN, HOLTON) 101

Carbon tetrachloride, release of phenyl acetate esterase from liver microsomes by (HIGASHINO, TAKAHASHI, YAMAMURA) 313

Catecholamines, 4-*O*-methylated, in biological media (MATHIEU, CHARVET, CHAZOT, TROUILLAS) 5

Cellogel, a study of serum lipoprotein electrophoresis on: normal values, comparison with SML profiling and ultracentrifugation (BERENDS, DE JONG, ZONDAG) 187

Cellulose acetate, gelatinized, lipoprotein electrophoresis on (VAN KAMPEN, VAN DER PLOEG) 441

Chloride, serum, a non-mercurimetric automated method for (FINGERHUT) 247

Chromatographic methods, comparison of isotopic and, for estimating fecal bile acids (KUDCHODKAR, SODHI, HORLICK) 47

Chromium, faecal, a method for measuring, and its use as a marker in human metabolic balances (FISHER, ATKINS, JOPLIN) 109

Creatinine assay by a reaction-kinetic principle (LARSEN) 209

Cystathioninuria in premature infants (PRZYREMBEL, BREMER) 95

Dicarboxylic acids, aliphatic C_6–C_{14}, in urine from an infant with fatal congenital lactic acidosis (BORG, LINDSTEDT, STEEN) 363

EDTA, quantitative determination of, and other polyamino acetic acids in urine and serum (ŠŤÁHLAVSKÁ, MALÁT) . . 181

Electrophoretic method, an, for the quantitation of aspartate aminotransferase isoenzymes (MURROS, KONTTINEN SOMER) 263

Epinephrine sensitivity, insulin and, of isolated fat cells in experimental nephrosis (TASHIMO, MATSUDA) 67

Erythrocyte membranes of patients having paroxysmal nocturnal haemoglobinuria and aplastic anemia, evidence for an abnormality in the (JACKSON, WHITTAKER) 299

Exoglycosidases, determination of the true activity of serum hyaluronidase by a method precluding the synergic action

of concomitant (PROVALENKO, VIHKA, YA. KHORLIN) 269
Fecal bile acids, comparison of isotopic and chromatographic methods for estimating (KUDCHODKAR, SODHI, HORLICK) 47
Faecal chromium, a method for measuring, and its use as a marker in human metabolic balances (FISHER, ATKINS, JOPLIN) 109
Fat cells, isolated, insulin and epinephrine sensitivity of, in experimental nephrosis (TASHIMO, MATSUDA) 67
Fatty acids, free, inhibition of bilirubin conjugation in rat liver slices by, with relevance to the problem of breast milk jaundice (BEVAN, HOLTON) 101
Fibrosis, cystic, and liver β-galactosidase and β-glucosidase (BUTTERWORTH, BAIN, MCCRAE) 367
Folic acid concentration in blood, pyridoxal phosphate and, and erythrocyte aspartate aminotransferase activity during pregnancy (HAMFELT, TUVEMO) . . . 287
Folic acid and vitamin B_{12} deficiency, urinary excretion of histidine metabolites as an indication for (VAN ROON-DJORDJEVIČ, CERFONTAIN-VAN STAALEN) . . . 55
2,5-Furandicarboxylic acid in human urine, the identification and metabolic origin of 2-furoylglycine and (PETTERSEN, JELLUM) 199
2-Furoylglycine and 2,5-furandicarboxylic acid in human urine, the identification and metabolic origin of (PETTERSEN, JELLUM) 199
β-Galactosidase and β-glucosidase, liver, cystic fibrosis and (BUTTERWORTH, BAIN MCCRAE) 367
Glucose, blood, an improved rapid automated method for the estimation of (MOORE, BARNES, PENNOCK) 439
β-Glucosidase, cystic fibrosis and liver β-galactosidase and (BUTTERWORTH, BAIN, MCCRAE) 367
Guanase, serum, determination of, by means of a NADH-linked reaction (WOLTHERS, NUSSE, BOOTSMA, GROEN) . . 223
Haemoglobinuria and aplastic anemia, paroxysmal nocturnal, evidence for an abnormality in the erythrocyte membranes of patients having (JACKSON, WHITTAKER) 299
Haemolysis, the effects of, on the determination of plasma constituents (BRYDON, ROBERTS) 435
Heat aggregation of human IgD (ENGLIŠ, ŠINDELÁŘ) 75
Heat stability of human serum alkaline phosphatase in bone and liver diseases (TAN, CHIO, LIM) 329
Hexadecanoic acid, formation of n-hexanedioic acid from, by an initial ω-oxidation in ketotic rats (PETTERSEN) 231
n-Hexanedioic acid, formation of, from hexadecanoic acid by an initial ω-oxidation in ketotic rats (PETTERSEN) . . . 231
Histidine metabolites, urinary excretion of, as an indication for folic acid and vitamin B_{12} deficiency (VAN ROON-DJORDJEVIČ, CERFONTAIN-VAN STAALEN) 55
Hormones, steroid, in adults, excretion of. Steroids in urine from adults (ERIKSSON, GUSTAFSSON) 79
Hyaluronidase, serum, determination of the true activity of, by a method precluding the synergic action of concomitant exoglycosidases (PRIVALENKO, VIHKA, YA. KHORLIN) 269
Hydrazide, isonicotinic acid low circulating levels of acid-labile hydrazones after oral administration of (RUSSELL) . . . 163
Hydrazones, acid-labile, low circulating levels of, after oral administration of isonicotinic acid hydrazide (RUSSELL) . . 163
Hydrolysis, resin-catalysed, routine assay of total urinary hydroxyproline based on (GOVERDE, VEENKAMP) 29
p-Hydroxyphenylpyruvate, urinary, the origin of, in a patient with hepatic cytosol tryosine aminotransferase deficiency (KENNAWAY, BUIST, FELLMAN) 157
Hydroxyproline, total urinary, routine assay of, based on resin-catalysed hydrolysis (GOVERDE, VEENKAMP) 29
Hyperaminoaciduria, primary hyperparathyroidism and (CUSWORTH, DENT, SCRIVER) 355
Hyperparathyroidism, primary, and hyperaminoaciduria (CUSWORTH, DENT, SCRIVER) 355
Hypothyroidism, red cell lipids in (NEERHOUT) 347
IgD, human, heat aggregation of (ENGLIŠ, ŠINDELÁŘ) 75
Immunodiffusion, orthogonal, and immunoelectrophoresis of serum proteins (AFONSO, AFFONSO, SANSGUIRI) . . . 275
Immunoelectrophoresis of serum proteins, orthogonal immunodiffusion and (AFONSO, ALFONSO, SANSGUIRI) 275
Insulin and epinephrine sensitivity of isolated fat cells in experimental nephrosis (TASHIMO, MATSUDA) 67
Iodine, protein-bound, and hormonal iodine after ioxitalamic acid (AQUARON) . . 175
Ioxitalamic acid, protein-bound iodine and hormonal iodine after (AQUARON) . . . 175
Isonicotinic acid hydrazide, oral administration of, low circulating levels of acid-labile hydraones after (RUSSELL) . . . 163
Isotopic and chromatographic methods, comparison of, for estimating fecal bile acids (KUDCHODKAR, SODHI, HORLICK) . 47
Jaundice, breast milk, inhibition of bilirubin conjugation in rat liver slices by free fatty acids, with relevance to the problem of (BEVAN, HOLTON) 101
Ketotic rats, formation of n-hexanedioic acid from hexadecanoic acid by an initial ω-oxidation in (PETTERSEN) 231
Laboratory data, a proposal for a more uni-

form output in (Lo, Kellen) 239
Laboratory test procedures, clinical, chemical interference by drugs and other substances with (Caraway, Kammeyer) 395
Lipids, red cell, in hypothyroidism (Neerhout) 347
Lipoprotein electrophoresis on cellogel, serum, a study of: normal values, comparison with SML profiling and ultracentrifugation (Berends, de Jong, Zondag) 187
Liver slices, rat, inhibition of bilirubin conjugation in, by free fatty acids, with relevance to the problem of breast milk jaundice (Bevan, Holton) 101
Metabolites, histidine, urinary excretion of, as an indication for folic acid and vitamin B_{12} deficiency (van Roon-Djordjević, Cerfontain-van Staalen) 55
4-*O*-Methylated catecholamines in biological media (Mathieu, Charvet, Chazot, Trouillas) 5
Methylmalonic acid in urine, the assay of (Dale) 141
Mucopolysaccharides (glycosaminoglycans), specific isolation and analysis of, from human urine (Goldberg, Cotlier) 19
Nephrosis, experimental, insulin and epinephrine sensitivity of isolated fat cells in (Tashimo, Matsuda) 67
Non-mercurimetric, a, automated method for serum chloride (Fingerhut) . . . 247
5-Nucleotidase, serum, determination of, by means of a NADH-linked reaction (Bootsma, Wolthers, Groen) 219
Ornithine carbamyl transferase: the effects of pH on the kinetics of a mutant human enzyme (Cathelineau, Saudubray, Polonovski) 305
ω-Oxidation in ketotic rats, formation of *n*-hexanedioic acid from hexadecanoic acid by an initial (Pettersen) 231
Oxygen-dissociation curves, a new method for the rapid determination of, in small blood samples by spectrophotometric titration (Kiesouw, Bless, Nelson, Shelton) 123
Phenyl acetate esterase, release of, from liver microsomes by carbon tetrachloride (Higashino, Takahashi, Yamamura) 313
Phospholipids, the, of the thyroid gland (Levis, Karli, Malamos) 335
Population screening, well, patterns of change for various biochemical constituents detected in (Wilding, Rollason, Robinson) 375
Pregnancy, pyridoxal phosphate and folic acid concentration in blood and erythrocyte aspartate aminotransferase activity during (Hamfelt, Tuvemo) 287
Premature infants, cystathioninuria in (Przyrembel, Bremer) 95
Pyridoxal phosphate and folic acid concentration in blood and erythrocyte aspartate aminotransferase activity during pregnancy (Hamfelt, Tuvemo) 287
Pyruvate kinase activity in blood cells, the assay of (Tanphaichitr, van Eys) . . 41
Radioimmunological and biological determination of plasma renin activity, comparison between (Sassard, Vincent) 321
Renal tubular acidosis, incomplete, in sickle cell disease (Goossens, Statius van Eps, Schouten, Giterson) . . . 149
Renin activity, plasma, comparison between radioimmunological and biological determination of (Sassard, Vincent) 321
Resin-catalysed hydrolysis, routine assay of total urinary hydroxyproline based on (Goverde, Veenkamp) 29
Serum alkaline phosphatase in in bone and liver diseases, heat stability of (Tan, Chio, Lim) 329
Sickle cell disease, incomplete renal tubular acidosis in (Goossens, Statius van Eps, Schouten, Giterson) 149
SML profiling and ultracentrifugation, normal values, comparison with: a study of serum lipoprotein electrophoresis on cellogel (Berends, de Jong, Zondag) . 187
Spectrophotometric titration, a new method for the rapid determination of oxygen-dissociation curves in small blood samples by (Kiesouw, Bless, Nelson, Shelton) 123
Steroid hormones in adults, excretion of. Steroids in urine from adults (Eriksson, Gustafsson) 79
Thyroid gland, the phospholipids of the (Levis, Karli, Malamos) 335
Titration, spectrophotometric, a new method for the rapid determination of oxygen-dissociation curves in small blood samples by (Kiesouw, Bless, Nelson, Shelton) 123
Tryptophan in children, the effect of burns on the metabolism of (Barlow, Wilkinson) 169
Tyrosoine aminotransferase deficiency, hepatic cytosol, the origin of urinary *p*-hydroxyphenylpyruvate in a patient with (Kennaway, Buist, Fellman) . . 157
Uric acid, crystalline, isolation of, from urine, for urate pool or turnover measurements (Johnson, Emmerson) 389
Urinary excretion of histidine metabolites as an indication for folic acid and vitamin B_{12} deficiency (van Roon-Djordjević, Cerfontain-van Staalen) . . . 55
Urinary hydroxyproline, routine assay of total, based on resin-catalysed hydrolysis (Goverde, Veenkamp) 29
Urinary *p*-hydroxyphenylpyruvate, the origin of, in a patient with hepatic cytosol tyrosine aminotransferase deficiency (Kennaway, Buist, Fellman) 157
Urine and serum, quantitative determination of EDTA and other polyamino

acetic acids in (ŠŤÁHLAVSKÁ, MALÁT) . 181
Urine from adults, steroids in. Excretion of steroid hormones in adults (ERIKSSON, GUSTAFSSON) 79
Urine from an infant with fatal congenital lactic acidosis, aliphatic C_6–C_{14} dicarboxylic acids in (BORG, LINDSTEDT, STEEN) 363
Urine, human, specific isolation and analysis of mucopolysaccharides (glycosaminoglycans) from (GOLDBERG, COTLIER) 19
Urine, human, the identification and metabolic origin of 2-furoylglycine and 2,5-furandicarboxylic acid in (PETTERSEN, JELLUM) 199
Urine, isolation of crystalline uric acid from, for urate pool or turnover measurements (JOHNSON, EMMERSON) 389
Urine, the assay of methylmalonic acid in (DALE) 141
Vitamin B_{12} deficiency, urinary excretion of histidine metabolites as an indication for folic acid and (van ROON-DJORDJEVIČ, CERFONTAIN-VAN STAALEN) . . 55
Xanthine oxidase activity by benzodiarone, the inhibition of (MARCOLONGO, MARINELLO, RIARIOSFORZA, PAGANI) 91

Calendar of Forthcoming Events

JANUARY 8–12, 1973, SURREY (U.K.)
Immunology as an Analytical Tool – University of Surrey Workshop Course
INFO: The Director, Wolfson Bioanalytical Centre, University of Surrey, Leapale Lane, Guildford, Surrey, U.K.

APRIL 9–13, 1973, SURREY (U.K.)
Computing as an Analytical Aid – University of Surrey Workshop Course
INFO: The Director, Wolfson Bioanalytical Centre, University of Surrey, Leapale Lane, Guildford, Surrey, U.K.

JUNE 4–8, 1973, ISTANBUL (TURKEY)
IAEA Symposium on Radioimmunoassay and Related Procedures in Clinical Medicine and Research
